Subject: Groundwater Contamination

Dear Ms. Glenn:

Recently the Boeing Company notified us of the results of site investigation work done at 7300 East Marginal Way South. Since the results indicate some contamination in the groundwater we are forwarding on a copy of the test report to you.

King County International Airport owns the property and the contamination probably occurred when the site was a gas station and tire retailer. The gas station was closed some years ago and the tanks and piping were removed in 1987.

While the Boeing Company has leased the site from November 1986, to the present, they are not responsible for this contamination.

We will continue to monitor the situation and keep you informed.

Sincerely yours,

Jeffrey W. Winter, P.E.
Airport Engineer
